Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 21 January 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

CLAIMS PRESENTED

Claims 3-18 are presented.

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection .

NEWLY CITED ART

The art made of record and not relied upon is considered pertinent to applicant's disclosure. The art disclosed general background. The art is taken from www.transnexus.com itself. As noted in ETSI (especially its section 4: Open settlement protocol architecture), OSP uses SSL and HTTP and message format in ways that would have been suggested by the relied prior art references. This is further noted in the Rejections Section of this Office Action.

CLAIM REJECTIONS

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Zimmerman and SSL.

Regarding claim 3, Zimmerman and SSL teach as noted in the previous Office Action.

Neither Zimmerman nor SSL (reference) are explicit about exchanging between a client device and a server. This was noted in page 9 of the Remarks section of the Amendment. Nevertheless, SSL is well known in the art to be used in such network environment for the motivation of secure communication of data

Hence, it would have been obvious to those of ordinary skill in the art at the time of the claimed invention to modify Zimmerman and SSL (reference) for the motivation noted in the previous paragraphs so as to teach the claimed invention.

The other claims (the other independent claims 7, 13) and the dependent claims (4-6, 8-12, 14-18) are rejected for the reasons noted in the previous Office Action and in the rejection of claim 3. As noted in the Remarks section of the Amendment, claims 7, 13 are of similar scope as that of claim 3. As noted in the Remarks section, the dependent claims do not offer any new reasons for patentability. Indeed, this can be easily discerned from looking at the nature of the limitations.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 2134

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
